Press Release to all media houses

Crusaders Against Corruption Ghana has neither signed any MOU or accepted to be part of any Alliance

Crusaders Against Corruption - Ghana (CAC-Gh) is a citizen-led Anti –Corruption and Good Governance Civil Society Organisation that provides anti- corruption and good governance public advocacy, policy advice to decision makers, public anti-corruption education and support to improve the lives of our citizens, our public service administration and government institutions that would impact on the growth and health of our nation, Ghana.

As a highly sought after body to attend meetings and participate in discussions by political parties and coalitions etc., of which the Alliance for Revolutionary Change is no exception, CAC-Gh. honoured an invitation for a launch of an alliance dated 17.04.2024. As courtesy demanded, during the delivery of solidarity messages, we made a very important proposal, being the need for Ghana to set up a CORRUPTION AUDIT AUTHORITY, and further indicated that we will be willing to work with any individual, organisation, movement, political party etc., that commits to our principles and approach in fighting corruption in Ghana.

That notwithstanding, we are yet to have such engagement with any political party, presidential candidate or movement.

We are assuring the general public that as and when such is done, we shall communicate same to the general public and particularly our members across the country.

Importantly, let it be noted that CAC-Gh. works with structures and a decision of such, would need the full approval of the Board Members as led by our Chairperson Bishop Dr. Suzanne Nti.

Thank you.

Theophilus Eweh
Executive Secretary
